Goalsetting | Strategic Planning and Analysis | Scheduling | Environmental Restoration | Sustainable Management

PROFESSIONAL EXPERIENCE

UNIVERSITY OF NORTH CAROLINA | CHAPEL HILL, NC, USA

Environmental Teacher | Environmental Guide

2018–Present

- Serve as nature guide and teacher in a butterfly zoo, educating students and adults about species of butterflies and all other features of insects and animals, along with tropical plants inside the museum.
- Prepare scientific games to capture students' attention while lecturing and exploring the zoo.
- Discuss insects in general and other related subjects including ecology, ethnology and botany.
- Cultivate engagement with Eco-Schools international program of the Foundation for Environmental Education (FEE), a program promoting and bringing environmental and sustainable developmental education to schools.
- Make visits at Eco-Schools in Denmark, introducing the Eco-Schools methodology through creative presentations. Develop an evaluation process across 50 countries, assessing the quality and impact of the program.

FOUNDATION FOR ENVIRONMENTAL EDUCATION (FEE), COPENHAGEN, DENMARK

Intern

2018

- Received commendation as a research assistant, conducting research on the entomological biodiversity of the northeastern part of Italy.
- Leveraged an integrated, quantitative and interdisciplinary approach through statistical analysis and surveys in the research area.
- Demonstrates in-depth knowledge of environmental science, particularly in environmental issues and management, climate change, forestry and ecological dynamics, and sustainability.
- Demonstrated expertise in environmental issues, education and communication.

Research Assistant

2016

- Integrated film making background within an environmental setting with a strong drive to succeed.
- Resolved and settled problems arising on the set. Accurately ensured schedules were on time, and motivated people to strive harder despite stressful situations.
- Commended as an exceptional visionary with advanced and innovative ways of thinking that solved various film conflicts and facilitated the identification of new opportunities.
